EXPLANATIONS.

1. STATE CAPITALS are printed in this table in small capitals.

2. *County Seats* are printed in italics, and are also indicated thus, (*c. h.*) except when "Court House" is a part of the name of the office, which is expressed thus, C. H.

3. The distances herein given are estimated by the way of the nearest legally established post routes. As distances are generally computed by way of the most direct, or most usually travelled road, without regard to its being a post route, there will be several instances in which the distances, as set down in this table, will materially vary from those generally understood by the public. To illustrate: the offices of Porter's Bridge, and Hiram, in Maine, are in adjoining townships; there is no direct mail communication between these post offices; they are supplied by different post routes; their distance from each other is not more, perhaps, than six miles; and yet, by the course of the *post* routes between these places and Washington, Hiram is twenty-five miles further from this city than Porter's Bridge.

To render this part of the publication as accurate as practicable, an experienced engineer, an officer attached to the topographical corps of the army, has been engaged upon it; and statements have been obtained from the Postmasters of most of the principal offices in the United States, giving the length of the mail routes passing their offices, and the reputed distances between the different post-offices situated on them.

4. The following list gives the States and Territories in the order of *contiguity* observed in this Department, the most approved *abbreviations* of their names, and the *distributing post offices* in the United States.

NOTICES.

☞ Every postmaster, contractor, and agent of the Department, on his examination of this table, will communicate to the Postmaster General any error which he may discover, particularly in the name of the county and distances of each office in his immediate vicinity, and any change in the county seat: Also, give information of all new counties, when formed, their boundaries, the post offices embraced in them, and their seats of justice.

☞ All communications to the Department should name the county and State of any office referred to. The county and State should also be written with the date.

☞ Many free letters are sent by mail *without any* post-mark, and it is quite common, in post-marks, to omit the *State*. Postmasters will be careful to postmark *all* letters sent by mail, with the name of the office and the abbreviated name of the State, the date, &c.
